18 Plaintiff Intel Corporation ("Intel") alleges as follows:

22 2. By using a trade name and service mark that wholly incorporates and emphasizes the  
23 world famous INTEL® trademark, AutoIntel is causing and/or is likely to cause confusion leading  
24 consumers to believe that there is an association between Intel and AutoIntel, or that AutoIntel is  
25 sponsored or affiliated with, or licensed by Intel. In addition, AutoIntel's acts are causing, and/or are  
26 likely to cause, dilution of the INTEL® trademark. Consequently, Intel seeks injunctive relief and  
27 damages under the federal Lanham Act (15 U.S.C. §§ 1051, *et seq.*), the California Business and

3 U.S.C. § 1119).

4 **I. JURISDICTION**

5 3. This Court has personal jurisdiction over AutoIntel because, on information and belief,  
6 it conducts or has conducted business in the State of California and within this judicial district.

7 4. This Court has jurisdiction over this matter pursuant to 15 U.S.C. § 1121 and 28 U.S.C.  
8 §§ 1331, 1338 and 1367. Intel's claims are, in part, based on violations of the Lanham Act, as  
9 amended, 15 U.S.C. §§ 1051, *et seq.* The Court has jurisdiction over the state law claims pursuant to  
10 28 U.S.C. §§ 1332, 1338(b), and 1367.

11 **II. INTRADISTRICT ASSIGNMENT**

12 5. This is an intellectual property action and therefore shall be assigned on a district-wide

1 **IV. INTEL'S BUSINESS AND MARKS**

2 8. Intel is a world-famous company that develops, manufactures and sells a wide variety of  
3 computer, communications and Internet-related products and services. Intel's customers include  
4 individual consumers, businesses, schools, and the government.

5 9. Intel's technology and services play a role in virtually every industry. Intel frequently  
6 provides technology solutions to businesses in the automotive industry. For example, automotive  
7 designers use Intel technology for power train control, anti-lock braking/vehicle dynamics control, and  
8 in-vehicle networking. Intel technology is also used for automotive casting simulations and for on-line  
9 management of the automotive parts procurement and supply chain. It has partnered with companies,  
10 such as Harman/Becker, to create in-vehicle infotainment systems. Intel has also worked with car  
11 companies, such as Volkswagen, to create open standards for mobile to automobile communications.

12 10. Intel has continuously offered and sold products and services since at least as early as  
13 1969 under the company name and trademark INTEL, long prior to AutoIntel's use of its service mark  
14 and trade name. For 40 years, Intel has used INTEL as a trade name, trademark and service mark to  
15 identify virtually its entire line of products and services. INTEL is one of the most valuable, respected  
16 and famous names and trademarks in the world. Indeed, *The Wall Street Journal* has regularly  
17 recognized the INTEL mark as one of America's most valuable brand names. From 1995 to 2000,  
18 *Fortune* magazine recognized Intel as one of the top ten "Most Admired Corporations in America," an  
19 honor Intel has shared alongside such companies as General Electric, Microsoft and Coca-Cola. In  
20 2008, the INTEL brand was ranked seventh in the world in Interbrand's Best Global Brands survey,  
21 with an estimated value of \$31 billion.

22 11. Intel uses INTEL as its "house mark" on or in connection with virtually every product  
23 and service it sells. Intel also regularly uses its INTEL house mark in conjunction with hundreds of  
24 other terms as the names of particular products or services, and in advertisements that span nearly  
25 every type of media. Thus, consumers are accustomed to seeing the INTEL mark combined with other  
26 terms to identify products and services that originate from Intel or its licensees. Intel engages in  
27 massive international advertising campaigns promoting the INTEL mark, spending many millions of  
28

dollars on this effort, and consequently, exposing consumers to billions of commercial impressions of its trademark. In 2007 alone, Intel sold over \$38.3 billion of INTEL branded products and services and, in the last twelve years, Intel has sold over \$364 billion of products and services under the INTEL name and mark.

8 13. In addition to using INTEL as a trade name, a trademark, and a service mark, Intel also  
9 owns a large family of marks that incorporate INTEL as a prominent component of the mark. For  
10 example, in 1991, Intel developed and launched a cooperative advertising and licensing program  
11 referred to as the "Intel Inside® Program." As part of this program, Intel adopted and began to use the  
12 trademarks INTEL INSIDE and INTEL INSIDE & SWIRL Logo (collectively referred to as the  
13 "INTEL INSIDE Marks") and licensed those marks to OEMs ("Original Equipment Manufacturers")  
14 to communicate to the end consumer that the manufacturers' products, such as personal desktop  
15 computers, laptop computers and workstations, were designed with genuine Intel microprocessors.  
16 The INTEL INSIDE mark became a badge of innovation and quality – hallmarks of Intel – to allow  
17 consumers to distinguish between products.

18 14. Among Intel's many thousands of OEM licensees worldwide are giants of the computer  
19 industry such as Dell, Gateway, Hewlett-Packard, IBM, and Sony. It is estimated that Intel's OEM  
20 licensees sold many billions of dollars worth of computer products bearing the INTEL INSIDE Marks.  
21 The combined advertising expenditure by Intel and Intel's licensees under the INTEL INSIDE Marks  
22 has averaged over one billion dollars for each of the last few years. Through extensive advertising and  
23 promotion by Intel and its licensees, advertisements reflecting the INTEL and INTEL INSIDE Marks  
24 have most likely created billions of impressions upon the general consuming public.

25 15. Intel is the owner of numerous U.S. trademark registrations for the INTEL INSIDE  
26 Marks, including Reg. No. 1,705,796 and Reg. No. 2,179,209. Copies of these registrations are  
27 attached hereto as Exhibits W and X.

3 Copies of these registrations are attached hereto as Exhibits Y through BB.

4 17. Intel is also the owner of several California trademark registrations for the mark INTEL  
5 (CA Reg. No. 63565; CA Reg. No. 94220; CA Reg. No. 94221). Copies of these registrations are  
6 attached hereto as Exhibits CC through EE.

7 18. Through decades of extensive use and promotion, Intel also owns common law  
8 trademark rights in INTEL and its family of INTEL formative marks, for all of the goods and services  
9 and activities identified herein.

10 19. Intel maintains an Internet site on the World Wide Web at the address  
11 <http://www.intel.com>. Intel's web site features the INTEL marks and many other INTEL composite  
12 marks.

13 20. As a result of the extensive sales, advertising, promotion, and use of the INTEL and  
14 family of INTEL trademarks, Intel has developed enormous recognition for its INTEL branded  
15 products and services, and enjoys an immensely valuable reputation and tremendous goodwill under  
16 the mark. The INTEL mark is world renowned, and is a "famous" mark for purposes of 15 U.S.C.  
17 § 1125(c)(1).

#### 18 **V. AUTOINTEL'S BUSINESS AND ITS VIOLATIONS OF INTEL'S RIGHTS**

19 21. Intel is informed and believes that AutoIntel offers nationwide vehicle sales and leasing  
20 and corporate fleet management services to customers across the United States, including throughout  
21 the State of California, and maintains a website at <http://www.autointel.com>. AutoIntel offers these  
22 services under the AUTOINTEL mark and trade name in California and throughout the United States.

23 22. AutoIntel uses the name and mark "AutoIntel" in marketing, often separating the  
24 AUTO and INTEL elements by capitalizing the letter "A" in Auto and "I" in Intel, and also by using  
25 contrasting colors. In so doing, AutoIntel accentuates the world-famous and distinctive INTEL portion  
26 of the mark. The AUTOINTEL mark has as its prefix the generic term "auto," which is descriptive of  
27 AutoIntel's services; thus, the INTEL element is the only distinctive portion of the mark.

1           23. Intel is informed and believes that AutoIntel is the owner of United States federal  
2 trademark registration for AI AUTOINTEL DRIVEN BY INTELLIGENCE & Design (Reg. No.  
3 3070278) ("AUTOINTEL & Design Mark"). AutoIntel applied for the AUTOINTEL & Design Mark  
4 on August 18, 2004, well after Intel's INTEL mark and family of INTEL composite marks became  
5 famous and world-renown.

6           24. Given the strong similarities between the INTEL and AUTOINTEL names and marks,  
7 the use of Intel's technology solutions in the automotive industry, and the strength and fame of Intel's  
8 marks, AutoIntel's customers are likely to be confused as to the source and nature of AutoIntel's  
9 services, or are likely to believe that AutoIntel is somehow affiliated or sponsored or endorsed by Intel,  
10 when in fact no such affiliation, association, sponsorship, or endorsement exists.

11           25. Despite Intel's numerous attempts to resolve the dispute amicably, AutoIntel has  
12 persisted in using the AUTOINTEL trade name and service mark, leaving Intel no choice but to file  
13 this Complaint.

14  
15                                   **FIRST CAUSE OF ACTION**  
16                                   **TRADEMARK INFRINGEMENT**  
                                      **(15 U.S.C. § 1114)**

17           26. Intel realleges and incorporates herein by reference the matters alleged in Paragraphs  
18 1 through 25 of this Complaint.

19           27. Upon information and belief, AutoIntel was aware of Intel's business and its INTEL  
20 mark prior to the adoption and use of the AUTOINTEL trade name and service mark.

21           28. AutoIntel either had actual notice and knowledge, or had constructive notice, of Intel's  
22 ownership and registrations of the INTEL mark pursuant to 15 U.S.C. § 1072 prior to AutoIntel's  
23 adoption and use of the AUTOINTEL trade name and service mark.

24           29. Upon information and belief, AutoIntel without Intel's consent deliberately adopted the  
25 AutoIntel trade name and service mark in connection with the sale of its services in an attempt to trade  
26 on the enormous goodwill, reputation, and selling power established by Intel under the INTEL mark  
27  
28

1           30.     AutoIntel's unauthorized use of the AUTOINTEL trade name and service mark falsely  
2 indicates to consumers that AutoIntel's services are in some manner connected with, sponsored by,  
3 affiliated with, or related to Intel, Intel's licensees, or the goods and services of Intel and Intel's  
4 licensees.

5           31.     AutoIntel's unauthorized use of the AUTOINTEL trade name and service mark is also  
6 likely to cause consumers to be confused as to the source and nature of the services AutoIntel is  
7 promoting or selling.

8           32.     AutoIntel's unauthorized use of the AUTOINTEL trade name and service mark in  
9 connection with its services allows, and will continue to allow, AutoIntel to receive the benefit of the  
10 goodwill established at great labor and expense by Intel and to gain acceptance of AutoIntel's services,  
11 not based on the merits of those goods or services, but on Intel's reputation and goodwill which are  
12 instantly recognizable..

13          33.     AutoIntel is likely to cause confusion, or to cause mistake, or to deceive consumers or  
14 potential consumers in violation of 15 U.S.C. § 1114.

15          34.     Intel has been, is now, and will be irreparably injured and damaged by AutoIntel's  
16 trademark infringement, and unless enjoined by the Court, Intel will suffer further harm to its name,  
17 reputation and goodwill. This harm constitutes an injury for which Intel has no adequate remedy at  
18 law.

19  
20                   **SECOND CAUSE OF ACTION**  
21                   **FALSE DESIGNATION OF ORIGIN**  
22                   **(15 U.S.C. § 1125(A))**

23          35.     Intel realleges and incorporates herein by reference the matters alleged in Paragraphs  
24 1 through 34 of this Complaint.

25          36.     AutoIntel's unauthorized use of the AUTOINTEL trade name and service mark falsely  
26 suggests that its services are connected with, sponsored by, affiliated with, or related to Intel, and  
27 constitutes a false designation of origin in violation of 15 U.S.C. § 1125(a).  
28

1 37. Intel has been, is now, and will be irreparably injured and damaged by AutoIntel's  
2 aforementioned acts, and unless enjoined by the Court, Intel will suffer further harm to its name,  
3 reputation and goodwill. This harm constitutes an injury for which Intel has no adequate remedy at  
4 law.

5  
6 **THIRD CAUSE OF ACTION**  
7 **FEDERAL TRADEMARK DILUTION**  
8 **(15 U.S.C. § 1125(C))**

9 38. Intel realleges and incorporates herein by reference the matters alleged in paragraphs  
10 1 through 37 of this Complaint.

11 39. The INTEL mark is world-renowned. It is a famous mark that is widely recognized by  
12 consumers, businesses and industry, and that identifies the products and services of Intel in the minds  
13 of consumers.

14 40. AutoIntel's unauthorized use of the AUTOINTEL trade name and service mark began  
15 after Intel's mark had become famous.

16 41. AutoIntel's unauthorized use of the AUTOINTEL trade name and service mark has, and  
17 will continue to have, an adverse effect upon the value and distinctive quality of the INTEL mark.  
18 AutoIntel's acts blur and whittle away at the distinctiveness and identity-evoking quality of the INTEL  
19 mark. AutoIntel's acts have diluted and are likely to continue diluting the famous INTEL mark in  
20 violation of 15 U.S.C. § 1125(c).

21 42. Intel has been, is now, and will be irreparably injured and damaged by AutoIntel's  
22 aforementioned acts, and unless enjoined by the Court, Intel will suffer further harm to its name,  
23 reputation and goodwill. This harm constitutes an injury for which Intel has no adequate remedy at  
24 law.
